The White Horse Reservoir Parish Survey is now OPEN.

This is an independent, parish-led survey, created to make sure the voices of the communities potentially affected by the proposed reservoir are properly heard.

Whether you support the reservoir, oppose it, are undecided, or simply have questions or concerns — we want to hear from you.

🏘️Our homes and communities
🌿Our countryside, wildlife and chalk streams
🚗Our roads and transport network
💧Water security and alternatives
🏪Our businesses and local economy
🦺Health, safety and construction impacts
💷Costs and long-term implications

This is your opportunity to put your views on record.

The survey will remain open for 4 weeks. The evidence gathered will be submitted to Thames Water, shared with the County and District Councils, and used while working alongside participating parish councils to help inform evidence about local impacts, including Local Impact Reports where appropriate.
